

AUTO INSURANCE MONITORING

AIM OFFENDERS IN THE RIGHT DIRECTION

ABOUT THE COURSE

Millions of drivers every day break the law by operating a vehicle without insurance. In turn, they are stopped and wind up in your courtroom. These cases clog the court system and many penalties go without the appropriate oversight to make sure the offenders comply...until now.

Auto Insurance Monitoring Program (AIM) will monitor offenders to ensure they obtain and maintain insurance for up to two years. Each month, advent will exchange information with insurance companies to verify the participant and assure proper coverage is being maintained. The monitoring of the offender will continue for up to two years. In the event the offender's coverage lapses, and you will be contacted by email or other desired means so the appropriate action can be taken.

COURSE DESCRIPTION

The AIM program is a part of Advent eLEARNING Internet-based platform that gives you the power to quickly and easily assign offenders to appropriate diversion programs, review their progress and make educated decisions on next steps. Although adventfs.com fully administers the program, your office has complete oversight and can make changes as needed. AIM allows you to add a service to the community without the burden of back office administration and cost. As well, AIM eliminates unnecessary court appearances provided, the offender complies with the program.

The fees for the monitoring service are charged to the offender so it is at no cost to your office. An administrative fee can be added in order to compensate your office for any costs that may be incurred and is remitted monthly to assist with your budgetary needs.

If restitution is involved, adventfs.com can also monitor and handle the payments to make sure the victims receive their money. Restitution payments can be made via mail-in, call-in or through bank deposit.

THE eLEARNING PLATFORM

Advent eLEARNING has been providing solutions to local Government officials for over ten years. Our professional approach to solving your problems has given us an impeccable reputation with our customers. Over 225 jurisdictions around the country trust adventfs.com. Our staff is very aware that we represent your office and reflect that respect when dealing with offenders on a daily basis.

WHY AIM

Benefits of the Auto Insurance Monitoring course:

- No cost, free-to-you service that is offender paid
- Reduce no-insurance drivers on the road
- Assure offenders comply with the court
- Reduce unnecessary case load
- Potential revenue source
